

Social Media Mapping and Analysis of Typhoon Bhopa (Pablo)

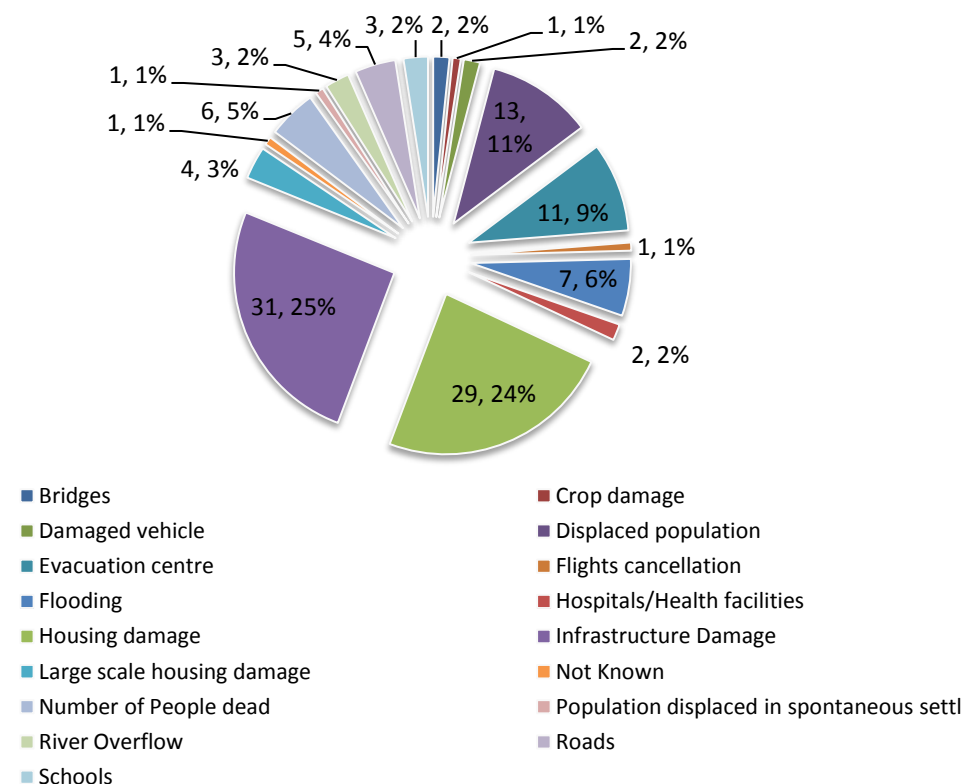

► Interactive Map available on – [Click Here](#) (Google Maps)

Background

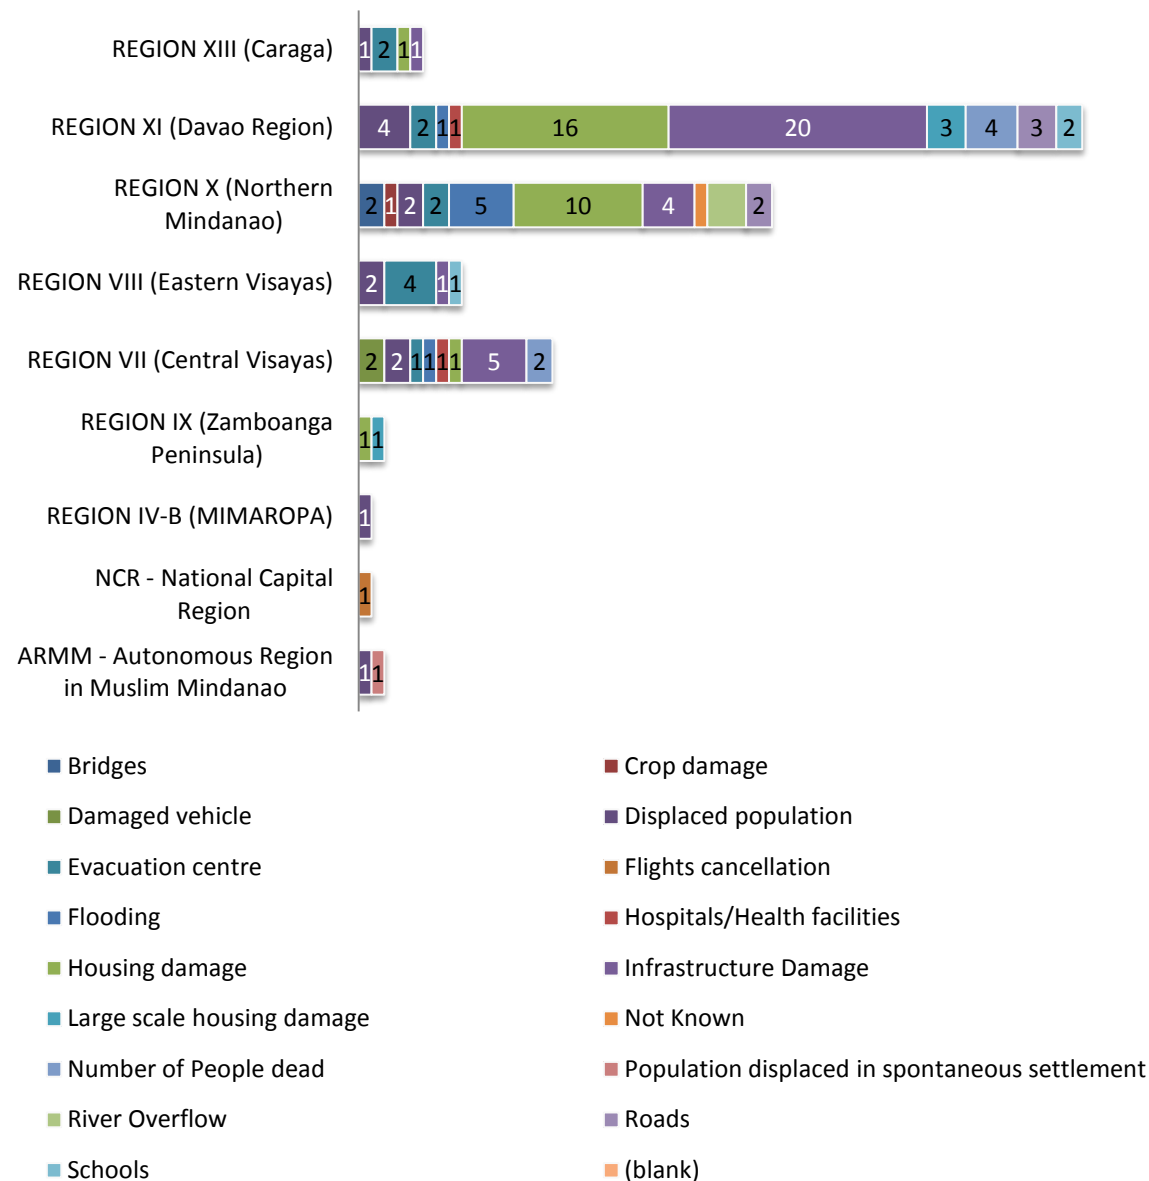

The United Nations Office for the Coordination of Humanitarian Affairs (OCHA) activated the Digital Humanitarian Network (DHN) on December 5th at 3pm Geneva time (9am New York). The activation requested to collect all relevant tweets about Typhoon Pablo posted on December 4th and 5th; identifying pictures and videos of damage/flooding shared in those tweets; geo-locate, time-stamp and categorize this content. Volunteer network coordinated by DHN was supported by Humanity Road and Stand-by Volunteer Task Force (SVTF) provided the database at 5am Geneva time the following day. Information was categorised in sixteen categories. Over 20,000 feeds were scanned filtering 122 unique data items. This document provides basic analysis of 122 data items.
