NOTE ON THE FILE

New York Liaison Office

Mr. Gokçe telephoned to report that Mr. Morse had sent a rather strong memorandum to Mrs. Weil to request the allocation of two additional offices adjacent to our Liaison Office in order to establish there the joint OEOA/UNDRO Information Processing Unit. A copy of the memorandum has since arrived by facsimile. He then reiterated that Mr. Zigelman had indicated that he could not provide Mr. Gokçe with a printer because Mr. Kerpelman had not given him his agreement to the conventional printer being used and the more sophisticated printer requested by Mr. Kerpelman was either not available or only available in about two months.

I recommended to Mr. Gokçe to request the installation of any printer available immediately on the proviso that this printer could be exchanged for a more sophisticated make whenever such a make became available. (Mr. Kerpelman is being informed of this decision by a copy of this memorandum).

The Africa Working Group meeting has so far not been informed by Mr. Morse of a final decision as to the date and venue of the Pledging Conference. The dates now envisaged seem to range from the 22-27 February and the venue originally envisaged in Geneva could now depend on whether the Secretary-General would be available to open the Conference or not.
