Report of mission

Mexico earthquake

(19 September 1985)

21 SEP - 4 OCT '85

Julio C. Grieco

11 December 1985

JCG/en

A. From 21 September to 4 October 1985 I undertook a relief co-ordination mission to Mexico, in the aftermath of the earthquake.

B. The present mission report has a structure which is somewhat particular, in the sense that it is constituted mostly by annexes. In fact, due to other commitments since my return to Geneva in early October, it has not been possible for me to produce a traditionally-shaped mission report. On the other hand, however, a full two and a half hour de-briefing session was held on the Mexico experience in the Co-ordination Centre, and it was attended by a large number of staff from both Branches.

C. This being the case, and considering that a substantial input for sitreps was sent by me from Mexico during the mission, the present report has been elaborated taking into account the following annexes:

1. Text of telexes sent from Mexico to Geneva during the mission. Despite the substantial amount of information transmitted, unfortunately only a fraction of it was used in the sitreps.
2. Minutes of the de-briefing session held in the Co-ordination Centre. Mr. Lake's minutes constitute a good summary of what was said.
3. List of needs given to the UNDP Office by the Government. It is included for the sake of showing the kind of situation which UNDRO is constantly faced with, i.e., receiving requests which bear little relationship to the real relief needs. I would reiterate something which I have frequently said with regard to this type of "middle-income" country, i.e., that relief needs are likely to be very limited and very specific from the onset of the emergency situation.
4. List of participants to the donors' meeting chaired by the Co-ordinator.
5. Press cutting (Mexico) concerning the Co-ordinator's mission.
6. Information obtained from the local press concerning damaged/destroyed buildings (and statistics).

* * * *

ANNEX 1. Telexes sent from Mexico city during the mission.

* PLEASE RELAY IMMEDIATELY FOLLOWING CABLE TO UNDR CH NEW YORK

* TO BE HAND CARRIED TO OFFICE OF SECRETARY GENERAL ASAP.

* QUOTE

* SECRETARY GENERAL FROM ESSAAFI

* AAAA) WISH TO INFORM YOU OF CONCLUSIONS MY MISSION TO MEXICO
* FOLLOWING EARTHQUAKE.

* BBBB) UPON ARRIVAL EVENING 21 SEPT WAS MET BY UN RESIDENT
* COORDINATOR AND DIRECTOR DEPARTMENT OF INTERNATIONAL ORGANIZATION,
* MINISTRY OF EXTERNAL RELATIONS.

* EARLY FOLLOWING MORNING VISITED MOST SEVERELY AFFECTED AREAS
* OF THE CITY. DESPITE SEVERE DAMAGE TO BUILDINGS AND LOSS OF
* LIFE (DEATH TOLL NOW APPROACHING 4000) DISASTER DAMAGE LIMITED
* TO APPROXIMATELY TWO PERCENT OF TOTAL NUMBER OF BUILDINGS.

* I WAS ABLE TO OBSERVE REMARKABLE SPIRIT OF NATIONAL COOPERATION
* IN PARTICULAR VOLUNTARY RELIEF SUPPORT FROM WIDESPREAD SECTORS OF
* THE POPULATION. INTERNATIONAL COOPERATION HAS ALSO BEEN SUBS-
* TANTIAL, IN THE FORM OF SPECIALIZED RESCUE TEAMS (STILL EXTRACTING
* LIVING VICTIMS FROM RUINS) AND PROVISION OF RELIEF SUPPLIES IN
* MORE THAN SUFFICIENT QUANTITIES TO MEET THE IMMEDIATE EMERGENCY NEED
* IT IS EVIDENT, HOWEVER, THAT CONSIDERABLE ASSISTANCE IN THE RECON-
* STRUCTION PHASE WILL BE REQUIRED.

* CCC) I HAD TALKS WITH MINISTER OF INTERIOR (GOBERNACION),
* THE MINISTER OF HEALTH AND THE DEPUTY MINISTER OF EXTERNAL RELA-
* TIONS, TO WHOM I CONVEYED YOUR DEEP CONCERN, SYMPATHY AND
* SUPPORT AND YOUR ASSURANCE OF THE READINESS OF THE UN SYSTEM
* AS A WHOLE TO ASSIST MEXICO IN THIS DIFFICULT MOMENT. THEY ASKED
* ME TO TRANSMIT TO YOU THEIR EXPRESSION OF DEEP GRATITUDE AND
* APPRECIATION. FOR THE RECONSTRUCTION PHASE THEY ESTABLISHED
* THE PRIORITIES IN THE FIELD SO F HEALTH, HOUSING AND EDUCATION.
* THE UN RESIDENT COORDINATOR AND MYSELF WERE INFORMED THAT THE
* GOVERNMENT WOULD APPRECIATE IT IF THE UN COULD ACT AS A CHANNEL?
* FOR CASH CONTRIBUTIONS FOR THE RECONSTRUCTION PROGRAMME.

* DDDD) IN ORDER TO FULLY BRIEF THE REPRESENTATIVES OF THE INTER-
* NATIONAL COMMUNITY IN MEXICO, MEETINGS WERE HELD THROUGH THE
* GOOD OFFICES OF THE UN RESIDENT COORDINATOR MR. GUSTAVO SILVA
* ARANDA, NAMELY WITH HEADS OF DIPLOMATIC MISSIONS, UN AGENCIES BASED
* IN MEXICO AND REPRESENTATIVES OF NON-GOVERNMENTAL ORGANIZATIONS.
* THE CENTRAL ROLE OF THE UNITED NATIONS IN MOBILIZING AND COORDI-
* NATING THE INTERNATIONAL RESPONSE TO THIS DISASTER WAS FULLY RECOGNIZ-
* AND APPRECIATED BY PARTICIPANTS, SPECIALLY REGARDING THE IMMENSE
* DIFFICULTIES NOW FACING THE GOVERNMENT DURING THE MONTHS AHEAD.

* EEEE) I WOULD LIKE TO MENTION THE DEDICATION AND FULL SUPPORT
* MANIFESTED BY THE UN RESIDENT COORDINATOR AND ALL THE UNITED
* NATIONS STAFF BASED IN MEXICO CITY DURING THIS EMERGENCY.

* FFFF) IF YOU SO DESIRE I AM READY TO COME TO N.Y. TO BRIEF YOU
* VERBALLY ON THE SITUATION.

* HIGHEST CONSIDERATION

RE

* MISC 1328 EINHAUS HEREWITH TEXT FOR NEXT SITREP. 25 SEP 1985 20 37

* 1. SITUATION - UNDR CO-ORDINATOR DEPARTING TO NEW YORK 25
* SEPTEMBER AND TWO UNDR DELEGATES STILL REMAINING IN MEXICO AT
* PRESENT. THEIR LATEST REPORT INDICATES SITUATION GRADUALLY
* RETURNING TO NORMAL ALTHOUGH IN SOME LIMITED AREAS OF THE CAPITAL
* POPULATION STILL DEPRIVED OF WATER SUPPLY ON REGULAR BASIS.
* INTERNAL COMMUNICATIONS NETWORK VIRTUALLY RESTORED BUT LINKS
* TO OTHER COUNTRIES STILL PRECARIOUS. RESCUE TEAMS ACTIVE ROUND
* THE CLOCK TO SAVE LIVING VICTIMS STILL TRAPPED IN RUINS BUT
* PROBABILITY OF SUCCESS GRADUALLY DIMINISHING AS TIME PASSES.

* COUNTRY IS NOW FACED WITH THE ENORMOUS TASK OF RECONSTRUCTION
* WHICH, ACCORDING TO VARIOUS ESTIMATES MIGHT TAKE SEVERAL YEARS
* TO BE ACCOMPLISHED. IT CAN BE NOW SAID THAT DESPITE THE ENORMOUS
* EFFORT STILL UNDERWAY OF RESCUING POSSIBLE SURVIVORS, THE EMERGENCY
* PHASE IS NOW BEING PHASED OUT IN THE SENSE THAT NEEDS ARE FULLY
* MET BY NATIONAL EFFORT AND INTERNATIONAL CONTRIBUTIONS.

* 2. AFFECTED AREAS AND CASUALTIES.
* OFFICIAL DEATH TOLL QUOTED IN PRESS AS OF 25 SEPTEMBER NOW
* PUT AT 4,596. PREDICTION OF NUMBER OF PERSONS (DEAD OR ALIVE)
* STILL TRAPPED IN RUBBLE RANGES FROM 1,000 TO 2,000. FINAL DEATH
* TOLL MIGHT BE EXPECTED TO REACH AROUND 6,000.

* MINISTRY OF HEALTH OFFICIALS INFORMED THAT NUMBER OF INJURED
* AT EARLY HOURS OF DISASTER HAD REACHED 6,000. AT PRESENT ONLY
* 650 OF THESE APPROXIMATELY ARE STILL BEING TREATED IN HOSPITALS.
* DESPITE SEVERE DAMAGE TO HOSPITAL INFRASTRUCTURE DUE TO COLLAPSE
* OF SEVERAL BUILDINGS (CENTRO MEDICO AND JUAREZ HOSPITAL),
* AVAILABILITY OF BEDS IN CITY HOSPITALS NOW PUT AT 2400 WHICH IS
* HIGHER THAN IN NORMAL CIRCUMSTANCES (THIS BEING RESULT OF NATURAL
* DECREASE IN IMMEDIATE POST-DISASTER PERIOD IN POPULATION DEMAND
* FOR HOSPITALIZATION FOR TREATMENT OF NON-EMERGENCY RELATED
* DISEASES). HOWEVER, IT IS NECESSARY TO PROCEED NOW TO FULLY
* RESTORE HOSPITAL CAPACITY OF CITY REDUCED BY AS MUCH AS 40
* PERCENT (EXAMPLE, 12 SURGICAL ROOMS TOTALLY LOST).

* THE NUMBER OF AFFECTED PERSONS OR ' DAMNIFICADOS ' IS APPROXIM-
* ATELY 30,000 BEING TEMPORARILY HOUSED IN 158 SHELTERS (PUBLIC
* AND PRIVATE).
* NUMBER OF DAMAGED BUILDINGS AS INFORMED IN PREVIOUS SITREPS
* STILL VALID.

* 3. RELIEF REQUIREMENTS.
* EMERGENCY NEEDS ARE NOW FULLY COVERED. MEDICINES HAVE BEEN
* SUPPLIED IN MORE THAN SUFFICIENT QUANTITIES. THERE ARE NO NEEDS
* AS FAR AS FOOD IS CONCERNED AND IMMEDIATE SHELTER REQUIREMENTS
* HAVE BEEN COVERED WITH HOUSING OF ' DAMNIFICADOS ' IN TEMPORARY
* SHELTER. CLOTHES AND BLANKETS ARE ALSO MORE THAN SUFFICIENTLY
* AVAILABLE. THERE IS NO NEED FOR MEDICAL TEAMS DUE TO WHAT WAS
* SAID PREVIOUSLY IN RELATION TO THE HEALTH SECTOR.

* THE REQUIREMENTS NOW ARE BASICALLY RELATED TO THE RECONSTRUCTION
* PHASE. SUBSTANTIAL CASH CONTRIBUTIONS WILL BE REQUIRED TO MEET

* 4. NATIONAL/INTERNATIONAL RESPONSE.
* NATIONAL CO-ORDINATION BEING ENSURED BY 2
* COMMITTEES, ONE HEADED BY MINISTER OF INTERIOR (NATIONAL LEVEL)
* AND SECOND BY MAYOR OF THE FEDERAL DISTRICT ' REGENTE ' OF D.F.
* POLITAN AREA).

* RESCUE TEAMS STILL RECOVERING LIVING VICTIMS SUCH AS YESTERDAY'S
* RECOVERY BY FRENCH TEAMS OF 8 DAY OLD BABY WHO WAS TRAPPED IN
* RUINS OF HOSPITAL FOR 4 DAYS.
* ALGERIAN, CANADIAN, BRITISH AND ISRAELI RESCUE TEAMS ARRIVED
* 24 SEPTEMBER.

* U.N. DISASTER RELIEF CO-ORDINATOR CALLED MEETING OF DONOR COMMUNITY
* IN MEXICO ON 24 SEPTEMBER.

* PARTICIPANTS INFORMED OF MEXICAN GOVERNMENT'S DESIRE THAT U.N.
* ALSO ACT AS CHANNEL FOR CONTRIBUTIONS TOWARDS RECOVERY AND REC-
* ONSTRUCTION NEEDS. DONORS WELCOMED THESE PROPOSALS . IN ADDITION,
* NATIONAL AND INTERNATIONAL CONTRIBUTIONS TO RECONSTRUCTION FUND.
* ACCOUNT EXCEEDING 2000 MILLION MEXICAN PESOS SO FAR.

* 5. CONTRIBUTIONS.

* RESPONSE OF THE INTERNATIONAL COMMUNITY HAS BEEN REMARKABLY
* SUBSTANTIAL AND SWIFT. SO FAR 30 COUNTRIES HAVE AIRLIFTED
* 3,300 TONS OF VARIOUS RELIEF SUPPLIES TO MEXICO (64 FLIGHTS)
* UNTIL 24 SEPTEMBER. DONORS ARE REQUESTED TO PROVIDE UNDR0 WITH
* DETAILED INFORMATION ON THEIR CONTRIBUTIONS. THIS REQUEST HAS
* ALREADY BEEN TRANSMITTED TO DONORS DURING MEETING IN MEXICO
* CITY ON 24 SEPTEMBER.

* UNDP - 2 MILLION US DLRS FOR RECOVERY PROJECTS.

* GENEVA =

* MISC1369 EINHAUS/ALESSI - HERewith MATERIAL FOR YOUR SITREP 9.

* 1. TOTAL NUMBER OF BUILDINGS IN MEXICO CITY IS 1,404,000. IN
* ADDITION TO NUMBER OF BUILDINGS TOTALLY DESTROYED (AS REPORTED
* PREVIOUSLY), THERE ARE NOW 1,132 STILL STANDING BUT AFFECTED,
* BREAKDOWN AS FOLLOWS -
* 612 AFFECTED BUT STILL BEING USED
* 417 EVACUATED AND NEEDING DEMOLITION,
* 103 WILL NEED IMMEDIATE CHECKING.

* 2. SUNDAY 29 IN LOS ANGELES A MARATHON MUSICAL ' MEXICO ESTAMOS
* CONTIGO ' WITH MORE THAN 300 ARTISTS WILL TAKE PLACE TO GATHER FUNDS.

* 3. MEXICAN PRESIDENT HAS STATED THAT THE GOVERNMENT IS WILLING
* TO GIVE FULL ACCOUNTING OF ALL FUNDS DONATED TO RECONSTRUCTION FUND.

* 4. FUMIGATION HAS STARTED IN DISASTER ZONES AS MEASURE OF SANITARY
* PREVENTION.

* 5. CITY 'METRO' FUNCTIONING NORMALLY EXCEPT IN THREE STATIONS.

* 6. SPECIAL BANK ACCOUNTS OPENED FOR VOLUNTARY CONTRIBUTIONS IN
* MANY COUNTRIES, LATEST ANNOUNCED ARE IN PUERTO RICO, USSR,
* JAPAN, CHILE.

* 7. COLLEGE OF ENGINEERS OF MEXICO HAS SET UP 446 BRIGADES WITH
* EXPERTS/TECHNICAL PERSONNEL (TOTAL 1320 PERSONS) WHO ARE IN PROCESS
* OF CHECKING SAFETY OF BUILDINGS.

* 8. 5,000 RURAL WORKERS FROM MANY LEAGUES OF AGRARIAN COMMUNITIES
* HAVE ARRIVED MEXICO CITY 26 SEPTEMBER FOR HELPING RESCUE WORK
* AND DEMOLITION.

* 9. EIGHT PERSONS STILL ALIVE RECOVERED FROM RUINS ON 26 SEPTEMBER,
* INCLUDING TWO 1 WEEK OLD INFANTS (TOTAL BABIES ALIVE NOW RECOVERED
* FROM HOSPITAL JUAREZ RUINS NOW 4).

- * 10. SWISS RESCUE TEAM LEFT 26 SEPTEMBER. OTHERS MIGHT LEAVE SATURDAY 28 (GERMAN, FRENCH, CANADIAN).
- * 11. BRITISH HELICOPTERS BEING USED TO LIFT AWAY DEBRIS IN SOME AREAS.
- * 12. OFFICIAL (GOVERNMENT) DEATH TOLL NOW 4,699 AS OF 27 SEPTEMBER (NB. MAKE SURE THIS IS ENTERED AS 'OFFICIAL' FIGURE, FOR OBVIOUS REASONS). UNCONFIRMED PRESS REPORTS PUT FIGURE AROUND 15000.
- * 13. MEXICAN RED CROSS OFFICIALS REQUESTING DONOR COMMUNITY TO STOP CONTRIBUTIONS BLOOD AND PLASMA WHICH HAVE BEEN PROVIDED IN MORE THAN SUFFICIENT QUANTITIES.
- * 14. MAYOR OF CITY IN TV INTERVIEW 26/9 INDICATED DEATH TOLL OVER 4000. 650 STILL BEING TREATED IN HOSPITAL, 30,000 'DAMNIFIED' OF WHICH TWO THIRDS ARE IN SHELTERS (PUBLIC OR PRIVATE) AND SOME THIRD TEMPORARILY CAMPING IN FRONT OF THEIR HOMES, AWAITING FOR PERMISSION TO COLLECT THEIR BELONGINGS.
- * 15. NO TRUSTWORTHY FIGURES AVAILABLE YET FOR DAMAGE (VALUE) ACCORDING TO MAYOR.
- * 16. IN SOUTHERN AREA OF CITY WATER SUPPLY STILL IRREGULAR (DISRUPTED UP TO 40 PERCENT OF CAPACITY) AND DESPITE EFFORTS TO IMPROVE IS LIKELY TO REMAIN SO FOR APPROXIMATELY ONE MONTH. TRANSPORT HAS BEEN MORE OR LESS RETURNING TO NORMAL DESPITE TRAFFIC JAMS IN AREAS ADJACENT TO AFFECTED AREAS CITY CENTRE.
- * 17. RISK OF EPIDEMICS HAS BEEN DISCARDED BY HEALTH AUTHORITIES AND MEDIA ARE PERMANENTLY RELAYING THIS INFORMATION TO ASSURE POPULATION.
- * 18. OFFICIAL FIGURES OF POPULATION STILL TRAPPED IN RUINS RANGES FROM 1,000 TO 2,000. AS TIME PASSES, FEWER CHANCES OF RECOVERING LIVING INDIVIDUALS. IN SOME DESTROYED BUILDINGS OF CITY CENTRE RESCUE WORKERS HAVE GIVEN UP HOPE OF FINDING PEOPLE ALIVE, ESPECIALLY IF THEY SUFFERED MAJOR INJURIES DURING QUAKE. DEATH IS USUALLY DUE TO STARVATION, ASPHYXIATION OR DEHYDRATION).
- * 19. ELECTRICITY SUPPLY ALMOST BACK TO NORMAL. TELEPHONES BEING RESTORED ALMOST TO NORMAL INTERNALLY (CITY) BUT OVERSEAS LINKS STILL CUT. FULLY OPERATIONAL STATUS MIGHT TAKE UP TO 6 MONTHS.
- * 20. AS FROM 28 SEPTEMBER GOVERNMENT WILL AUTHORIZE IN SOME AREAS FOR POPULATION TO RECUPERATE THEIR BELONGINGS IN EVACUATED BUILDINGS.
- * 21. MEXICAN RED CROSS DISTRIBUTING BETWEEN 30 TO 50 TONS OF RELIEF SUPPLIES IN 40 REFUGEE AND 24 AID STATIONS.
- * 22. IMMENSE EFFORT OF NATION SOLIDARITY UNDERWAY.

27 SEP 1985 19 48

UNDRP
CO-ORDINATION CENTRE

* 23. DEMOLITION WILL ONLY TAKE PLACE WHEN THERE IS NO HOPE OF
* RESCUING SURVIVORS. GOVERNMENT HAS BEEN ASSURING POPULATION OF
* THIS.

* 24 DOCTORS IN FRENCH RESCUE TEAM HAVE LEFT 26 SEPTEMBER DUE
* TO SUFFICIENT CAPACITY IN COUNTRY.

* 25 . DOGS ARE REPORTED AS NOT EFFECTIVE AFTER 7 DAYS SO IT IS
* EXPECTED THAT THEY WILL BE PULLED OUT GRADUALLY BEFORE WEEKEND.

* 26. FINANCE MINISTER WILL MEET IN WASHINGTON 28/9 OFFICIALS WORLD
* BANK, IMF, INTERAMERICAN DEVELOPMENT BANK AND VARIOUS US GOVERNMENT
* OFFICIALS TO REVIEW JOINTLY THE VARIOUS OFFERS OF AID TO MEXICO
* MADE BY MANY OF THEM IN WAKE OF EARTHQUAKE.

* CONTRIBUTION INFO ALREADY TRANSMITTED.

* UNDR0

* GENEVA =

* UNNUMBERED EINHAUS/ALESSI HERewith MATERIAL FOR SITREP 10.

* 1. CASH GRANTS TO RECONSTRUCTION FUND NOW TOTALLING MEXICAN PESOS
* 3347 MILLIONS PLUS U.S DOLS 2.35 MILLION . MANY SPONTANEOUS
* CONTRIBUTIONS BEING MADE DAILY.

* 2. MEDICAL STAFF DEALING WITH RESCUED SURVIVORS HAVE BEEN IMPRESSED
* WITH THE CAPACITY TO SURVIVE ESPECIALLY BABIES PULLED FROM RUINS
* WHICH NOW NUMBER ELEVEN.

* 3. AS OF 28TH SPETEMBER AM , 90 RELIEF FLIGHTS (GOVERNMENTS,
* PRIVATE SECTOR AND NGO'S) HAVE BROUGHT RELIEF SUPPLIES TO MEXICO.

* 4. MEXICAN COLLEGE OF ENGINEERS ARE CONDUCTING SURVEYS OF AFFECTING
* BUILDINGS STILL STANDING AND PRELIMINARY ESTIMATE IS 270 MUST
* BE DEMOLISHED.

* 5. AS A RESULT OF FINANCE MINISTER'S VISIT TO WASHINGTON 27TH
* SEPTEMBER WORLDBANK CONSIDERING SENDING TECHNICAL MISSION TO
* EVALUATE REQUIREMENT.

* 6. DISASTER EXPERT FROM ECONOMIC COMMISSION LATIN AMERICA AND
* CARRIBEAN ARRIVED MEXICO CITY FROM SANTIAGO 27 SEPTEMBER AND
* LIAISING WITH UNDR0 TEAM.

* 7. MEXICAN PILOTS UNION HAS OFFERED TRANSPORT FACILITIES ON
* BOARD AEROMEXICO AND MEXICANA AIRCRAFT FOR MEDICAL AND RESCUE
* EQUIPMENT.

* 8. DIRECTOR OF NATIONAL REHABILITATION INSTITUTE (MINISTRY OF HEALTH)
* INFORMED PRESS THERE WILL BE NEED FOR PROTESES (LEGS , ARMS
* HANDS AND FEET)
* FOR THOSE VICTIMS WHO SUFFERED AMPUTATIONS.

- * 9. MEXICAN SENATE AND CHAMBER OF DEPUTIES HAVE EXPRESSED APPRECIATION FOR INTERNATIONAL AID. CHAMBER OF DEPUTIES ADOPTED 26TH SEPTEMBER RESOLUTION DECLARING NEED TO FORMULATE MEASURES IN FIELDS OF HOUSING, HEALTH, LAND USE, AND LABOUR WHICH WOULD
- * AAA. ELABORATE HOUSING PROGRAMME FOR AFFECTED POPULATION
- * BBB. PROMOTE REVISION OF PRESENT CONSTRUCTION NORMS
- * CCC. PROMOTE AN IMMEDIATE SURVEY OF AFFECTED ZONES IN ORDER TO ASSESS STATE OF BUILDINGS.
- * DDD. IMPLEMENT MEASURES TO MAINTAIN PUBLIC HEALTH CONDITIONS.
- * EEE. PROPOSE URGENT MEASURES TO DEAL WITH PROBLEMS OF UNEMPLOYMENT STEMMING FROM DISASTER SITUATION.
- * FFF. TO CURTAIL SPECULATION AND PREVENT INFLATION OF BASIC DAILY CONSUMPTION ITEMS.

- * 11. OFFICIAL FIGURES INDICATE 20,000 FOOD RATIONS BEING PREPARED DAILY FOR AFFECTED POPULATION.

- * 12. UNIVERSITY OFFICIALS REPORTED MORE THAN 200 YOUNG DOCTORS (INTERNEES) LOST THEIR LIVES IN THE HOSPITALS JUAREZ, GENERAL HOSPITAL AND CENTRO MEDICO HOSPITAL. 400 NURSES FEARED DEAD ALSO.

- * 13. FRENCH RESCUE TEAM (U.I.S.C. 7 BASED IN BRIGNOLLES FRANCE) OPERATING WITH 378 RESCUE WORKERS AND 36 DOGS HAVE RECOVERED 40 LIVING VICTIMS, INCLUDING 11 BABIES, SINCE THEIR ARRIVAL IN MEXICO. TEAM WILL RETURN TO FRANCE 28/29 SEPTEMBER.

- * 14. FEDERAL DISTRICT SOURCES QUOTED IN PRESS SAID DEMOLITION EFFORTS WILL BEGIN SUNDAY 29 AS MINIMAL HOPE OF STILL RECOVERING VICTIMS RESTS.

- * 15. DEATH TOLL AS REPORTED BY MEXICO CITY POLICE 28 SEPTEMBER A.M 4765.

- * 15.16. MEXICAN GOVTM. HAS ORDERED REVISION OF BUILDING CODES AT REQUEST OF PRESIDENT.

- * 17. EXPERTS FROM NATIONAL UNIVERSITY (UNAM) SAID EFFECTS OF QUAKE IN CITY CENTRE WERE STRONGER DUE TO SAND NATURE OF SOIL. PRELIMINARY ESTIMATES FROM UNIVERSITY ACCELEROGRAPHS INDICATE THAT PEAK GROUND ACCELERATION WAS ABOUT FIVE TIMES FASTER IN THE CENTRAL ZONE THAN IN THE SOUTHERN AND WESTERN SECTORS UNDERPINNED BY ROCK WHICH EMERGED PRACTICALLY UNSCATHED FROM THE QUAKE.. THE CITY CENTER RESTS ABOVE WHAT WAS ONCE THE DEEPEST PART OF THE ANCIENT LAKE. THUS THE VIBRATIONS FROM THE EARTHQUAKE STRUCK THE SOFT SUBSOIL FIRST.

OFFICE
OF THE DISASTER RELIEF CO-ORDINATOR

UNDRO

MEMORANDUM

A - TO: Mr. R. Souria

REF.: DPR 310 MEX '84 (1)

DE - FROM: T. Lake *Timothy Lake*

GENÈVE, 12 November 1985

OBJET - SUBJECT:
Mexico Earthquake Debriefing

INTRODUCTION

1. Mr. Grieco began the debriefing by saying that much can be learned from the Mexico Disaster. He noted, as an introduction to the debriefing, that during the Mexico earthquake and the subsequent relief efforts, UNDRO had little in the way of co-ordination activities to offer to Mexico City. Its primary purpose during this disaster was the dissemination of information to the press, the public and the donors. This role was due mainly to the nature of the disaster and also the nature of Mexico City itself.

2. Housing and Shelter

Mr. Grieco said that the extent of damage during the earthquake was not overwhelmingly great, there were no major housing and shelter problems normally associated with this type of disaster. He pointed out that the quake was not like that of Nicaragua in the early seventies where total destruction occurred. In Mexico City only between 1 and 2 percent of the buildings were destroyed. Many city inhabitants that lived in and survived the destruction of these buildings sought shelter in the homes of friends and relatives.

3. Health Needs and Delivery

Health delivery was also not a problem. Mexico City has an enormous amount of medical facilities and doctors and they are especially well-prepared for emergencies. The earthquake left 2500 hospital beds still available even though a few hospitals had collapsed. This remaining hospital capacity easily absorbed the number of people needing hospital treatment.

4. Contributions

The number of contributions was enormous and, often, unmanageable. The problems of handling the great quantity of goods and personnel were compounded by the uselessness of some of the material. During the first ten days of the UNDRO team's arrival, some 100 flights came into the airport carrying aid. Emergency food aid and medical teams was unnecessary but sent by many donors. Many teams had very little to do while in Mexico.

Another example of inappropriate donations was the abundance of donated blood. There were so many litres that Mexican authorities were worried about their capacity to store them.

5. Rescue Teams

Rescue teams and search dogs were one part of the great influx of aid that was needed. Eleven countries responded to this need, sending either their national teams or by sponsoring private ones. Once teams were assigned to their tasks, they worked very efficiently.

6. Communication

The nature of the lack of communications during the relief period was discussed. The building used for international communications was badly damaged. Mr. Kraml who was Duty Officer at the time of the earthquake, asked why the UNDP Resident Representative had not sent a telex to UNDR0 describing the situation until nearly two days after the earthquake had occurred. Mr. Tomblin said that the Resrep had been near the westcoast of the country some 250 miles from the City and it had taken him some time to get back. Mr. Grieco added that the delay was caused by two other factors. First, UNDP initially had to be concerned with the well-being and organization of its own staff. Second, the staff had to be evacuated from the building for two days before engineers decided that it was safe.

7. Radio

Mr. Grieco discussed the radio that he had seen PAHO use for international communication and suggested that UNDR0 acquire a similar system. The radio weighs about 15 kilos, can be operated with a car battery and reaches anywhere in the world via satellite. Mr. Tomblin added that it cost approximately US\$ 2,000 and was available on the commercial market. Other staff members appeared to agree on the need for this type of system.

8. Consequences of Communications (or Lack of it)

There was a debate among staff members concerning what effect the lack of early damage reports (within first couple of days) from sources other than Reuters had had on international relief efforts and UNDR0's role in them. One side was taken that if UNDR0 had received earlier information it would have been possible to advise against unnecessary aid, e.g. medical teams. Others disagreed saying that donors send available aid at the time and many send it spontaneously before consideration of needs assessment. Mr. Solomatine suggested that a list could be distributed to donors describing relief needs according to country and potential disaster. Mr. Kuroda added that UNDR0 should continue through various mediums to educate donors on the general importance of determining needs before making contributions. There appeared to be a consensus among staff members on these two points.

9. Telex Communications, Working Hours and Situation Reports

Mr. Grieco said that one of the problems with which the Officers on mission were confronted was the time difference (8 hours) between Geneva and Mexico. He described some of the daily routines of the mission noting that by the time he and Mr. Larner had prepared enough information to send by telex to UNDRO for the day, it was late in the evening in Geneva. Mr. Grieco stated that the daily questioning as to whether the Duty Officer in charge should stay late past 17.30 hrs was inappropriate and gave UNDRO a bad image. Mr. Souria later reiterated this point saying that it should be the most important lesson learned from the disaster. Whoever is in charge of receiving telex messages should expect to stay late. An alteration of that person's working hours was mentioned e.g. noon to late in the evening. Mr. Grieco then commented that much of the information sent by telex for sitreps was not used in those sitreps. He also objected to a telex sent "for the personal attention of" the relief officers in Mexico City that questioned the validity of certain information sent to Geneva by the Officers. Mr. Grieco said that this telex was unnecessary and inappropriate. Mr. Larner added that the particular telex had been seen by other UN Staff making it very embarrassing for the officers on mission.

10. Video Equipment

Mr. Larner spoke about some of the problems involved in taking and using video equipment at the disaster site. There were initially only 3 one-half hour cassettes that were supplied for him to take to Mexico. Additional ones were sent by plane but the wrong flight number was communicated. This caused delay in pick-up. He also noted that an excessive amount of time was spent on keeping close watch on the equipment. Had the equipment been insured, this aspect of the mission would have been less worrisome.

11. Other Problems Mentioned by Staff

Many felt that it was unfortunate that Mr. Essaafi did not meet with the President of Mexico because the Co-ordinator was, at the time, the sole representative of the Secretary-General. Lack of time (the President's) was given as the main explanation for his not doing so. Also, Mr. Souria said that it was unfortunate that Ms. Anstee, in charge of UN Assistance in the reconstruction of Mexico City, did not mention UNDRO when thanking agencies involved in the relief efforts.

12. Conclusions

Mr. Verhagen said that he was worried that with the efforts UNDRO has been making responding to long-term disasters in Africa, the Office may have lost some of its ability to react and respond to short-term disasters such as the Mexico earthquake. He recommended that UNDRO begin to make adjustments to better prepare itself for this type of disaster. Mr. Souria wished to conclude the meeting by saying that while many things went wrong during the disaster valuable lessons were learned. He added that all UNDRO staff involved played a very valuable role in the co-ordination of the international response.

ANNEX 3. List of relief needs, as presented by the Government.

FUNCIONES

Al llegar a un determinado lugar de atención médica, el médico, de acuerdo al nivel de operación de la unidad, indicará al analista qué listado deben comprobar.

Se elaborará el inventario funcional determinando la eficacia o eficiencia y la cobertura del servicio.

Los aparatos descompuestos se pasarán al Ingeniero, quien hará el diagnóstico correspondiente, haciendo los técnicos el trabajo, de acuerdo a sus indicaciones.

Se analizarán los motivos por los cuales el equipo no se utiliza y se pondrán las medidas necesarias para su promoción. La experiencia indica que la mayoría de veces la falta de utilización resulta de la carencia de manuales y de capacitación en la técnica; coordinadamente con la unidad Central de la Dirección de Desarrollo Tecnológico en Salud se tratará de resolver este problema.

**2 MILLONES DARA
LA ONU**

La Organización de las Naciones Unidas está en disposición de otorgar a México 2 millones de dólares extras para la reconstrucción de viviendas, suelos y subsuelos dañados por el terremoto.

El anuncio fue hecho ayer por Mohamed Essafi, subsecretario general adjunto y coordinador de la Oficina de Naciones Unidas para Socorro en Caso de Desastre, así como Gustavo Silva Alcántara, encargado de la misma oficina pero aquí en la ciudad de México.

Señalaron que también se canalizarán 30 mil dólares más para programas de emergencia.

En cuanto a estas cantidades de dinero, los funcionarios de la

ONU aclararon que se irán entregando conforme el gobierno de México vaya presentando los proyectos para la reconstrucción de las zonas afectadas por el sismo.

Durante una conferencia de prensa en el aeropuerto Mohamed Essafi, quien ayer retornó a Ginebra, Suiza, aseveró que el secretario general de la ONU, Javier Pérez de Cuéllar ha estado atento a la situación que prevalece en esta nación.

"Estamos dispuestos a ayudar en todo lo que sea necesario", puntualizó Essafi ante los representantes de los medios de información.

Destacó la labor valiente y de gran coraje que han desarrollado los mexicanos ante la desgracia.

"Es admirable la juventud mexicana que en cuanto sucedió la tragedia salió a la calle a rescatar a las víctimas del temblor. Es impresionante también la solidaridad internacional", comentó más adelante el funcionario de las Naciones Unidas, quien aseguró que la reconstrucción de las zonas dañadas "durarán algún tiempo".

Dijo que la ONU enviará a más técnicos capacitados en casos de temblores para continuar las labores de rescate y rehabilitación.

Insistió que Naciones Unidas responderá inmediatamente a cualquier llamado que haga México para la solución de los trágicos problemas que se enfrentan.

Añadió que el mismo organismo internacional ha llamado al mundo a que coopere y sume esfuerzos para que los mexicanos puedan superar la actual situación en el menor tiempo posible.

Consideró que no es fácil reconstruir tanto edificio dañado por el siniestro del jueves 19 de septiembre.

Essafi aseguró que ya se han cubierto las necesidades fundamentales y destacó la ayuda que han prestado diversas organizaciones como Estados Unidos, Francia, Alemania, entre otras muchas.

También la ONU

Y por otra parte, un alto funcionario de la Organización de las Naciones Unidas, concretamente el subsecretario general adjunto y coordinador de la Oficina de Naciones Unidas para Socorro en Casos de Desastre, señor Mohamed Essafi, ha indicado que se otorgarán a México dos millones de dólares extras para la reconstrucción de viviendas, suelos y subsuelos dañados por el terremoto. "Estamos dispuestos a ayudar en todo lo que sea necesario", dijo el señor Essafi. Ante esas muestras de apoyo y de simpatía, que se están traduciendo y concretando en cantidades de dinero, todos los mexicanos tenemos que ofrecer por nuestra parte el mejor de los esfuerzos, no solamente en estos precisos momentos, sino a todo lo largo del tiempo futuro, en que habremos de mostrar la más completa e irrompible unidad, conscientes plenamente del valor que tendrán nuestras acciones si las ejecutamos todos en un solo sentido, atendiendo a las prudentes orientaciones y direcciones de nuestras autoridades. Así como en todo el mundo hay una unificación de simpatía y de afecto hacia México, los ciudadanos en el interior del país tenemos que buscar y encontrar, analizar y aplicar todo lo que nos una, que nos mantenga en marcha hacia un fin común y nacional. Esta solidaridad de que ahora hasta hacemos gala en la gran metrópoli, debe seguirse manifestando en todo el país.

A la izquierda, el señor Mohamed Essafi, coordinador de la ONU para casos de desastre, anunció el otorgamiento de dos millones de dólares para ayudar a la reconstrucción.

Anuncia la ONU 2 millones 30 mil dólares para apoyar los programas de reconstrucción nacional

► Indica que se manifestará por que se le dé a México trato preferencial respecto a su deuda

La Organización de las Naciones Unidas (ONU) entregará al gobierno mexicano 2 millones 30 mil dólares en la medida que se requiera en apoyo a los programas de reconstrucción nacional prioritarios —salud, educación y vivienda—, anunció ayer el secretario general adjunto y coordinador de ese organismo en casos de desastre, Hamed Essafi.

Entrevistado en el aeropuerto capitalino, indicó que la Asamblea General de la ONU se manifestará en favor de un trato preferencial para México en el pago del servicio de la deuda externa. "Se hará hincapié en la situación de desastre que soporta la población mexicana, para que

los países acreedores amplien las condiciones de pago de los intereses de la deuda".

Reiteró que la ONU se solidariza con el pueblo y gobierno mexicanos, y señaló que entre las acciones de ese organismo para auxiliar a los damnificados está el publicar diariamente información detallada de los daños y necesidades del pueblo mexicano destinada a la comunidad de países donantes.

Manifestó su admiración ante la solidaridad nacional que ha demostrado sobre todo la juventud, que concurre a realizar labores de rescate sin contar con más elementos que sus manos.

En el renglón de salud, consideró que están cubiertas las necesidades de la población afectada, y opinó que el sector correspondiente tiene la capacidad para atender adecuadamente a las personas que así lo requieran.

Finalmente, dijo que aún es temprano para tener una evaluación de los daños materiales y humanos que ha dejado el terremoto del pasado jueves. Consideró que las acciones consecuentes llevarán algún tiempo y que no será fácil la reconstrucción de las zonas afectadas; sin embargo estimó que con la tenacidad de los mexicanos y la ayuda de técnicos y especialistas de la ONU, así como de otras naciones, México saldrá adelante.

PARA LA RECONSTRUCCION

Ofrece la ONU ayuda a México por 800 millones de pesos

Víctor Cardoso ■ La Organización de las Naciones Unidas (ONU) prometió prestar ayuda a México por cerca de 800 millones de pesos para la reconstrucción de casas habitación, escuelas y hospitales, aseguró el secretario general adjunto y coordinador de ese organismo para socorro en caso de desastre, H. Hamed Essaafi.

Entrevistado poco antes de regresar a Ginebra, puso de manifiesto que la ONU ha hecho saber al presidente Miguel de la Madrid que puede contar con toda su capacidad técnica y especializada en asuntos de sismología, para hacer una evaluación de los daños sufridos por el país.

Dijo que hay ofrecimientos de todos los miembros de la ONU, y que el programa para el desarrollo de ese organismo acaba de poner a disposición del gobierno mexicano 2 millones de dólares, más 30 mil dólares con que cuenta su programa de emergencia.

Por otra parte, hasta el momento han arribado a la capital del país más de 70 vuelos con carga de mil 500 toneladas de

ayuda de diverso tipo.

En un afán por recibir mayor cantidad de medicamentos, mantas, alimentos, agua y equipo médico, se presentó una fricción entre los representantes del Departamento del Distrito Federal y la Cruz Roja. Este problema hizo que el representante de la Cruz Roja, Gabriel Luna, tuviera que ser relevado y en su lugar se designara a Sergio Padilla.

Al respecto, el director de Aeropuertos y Servicios Auxiliares, Humberto Lugo Gil, indicó que ese organismo se ha mantenido al margen, y únicamente se encarga de la descarga de la ayuda en la plataforma de operaciones de aviación general.

En ayuda material, técnica y humana, ayer llegaron siete vuelos especiales, procedentes de la Unión Soviética, Francia, Estados Unidos, Guatemala y República Democrática Alemana.

Entre todos enviaron poco más de cien toneladas de medicamentos, comida enlatada, material quirúrgico y equipo de rescate, así como personal especializado para ayudar a los damnificados.

Pérez de Cuéllar Conoce Perfectamente el Problema de la Deuda de México: Essaafi

Por JAIME DURAN

"El secretario general de las Naciones Unidas, Javier Pérez de Cuéllar conoce a la perfección el problema de la deuda externa de México y las circunstancias del servicio de la misma, en estos momentos críticos para el país, por lo que hará hincapié en que la asamblea general logre mecanismos adecuados", afirmó ayer M'Hamed Essaafi, secretario general

adjunto y coordinador de ayuda en casos de catástrofes, que ayer regresó a Nueva York.

Indicó que "hemos estado aquí varios días en contacto con el Presidente Miguel de la Madrid, y los secretarios de Programación, de Salud, para ofrecer toda la ayuda que México requiera en estos momentos de los diversos organismos de la ONU".

Essaafi dijo que "tenemos permanente contacto

con la Secretaría de Relaciones Exteriores para escuchar las demandas de ayuda de México en el momento y en el campo que se requieran".

El secretario general adjunto de la ONU dijo que ese organismo puso a disposición del gobierno de México un cheque por 2 millones de dólares, canalizados a través de PNUDE y otros 30,000 dólares para

SIGUE EN LA PAGINA 43

PEREZ DE CUELLAR CONOCE PERFECTAMENTE

programas de emergencia y cualquier requerimiento mexicano en el momento que lo desee".

En cuanto a la deuda externa dijo que "el secretario general Pérez de Cuéllar conoce a fondo el problema del servicio de la deuda externa en el caso específico de México como de las naciones de América Latina y del Tercer Mundo y se espera que logre mejores condiciones".

Dijo que "sismólogos y técnicos especializados en construcción de habitat, de Ginebra, vendrán a México a hacer diversas evaluaciones, y si el gobierno mexicano lo decide, colaborarán en los programas de reconstrucción de la capital" y estimó que por el momento no es posible cuantificar los graves daños sufridos en la ciudad de México".

Indicó que "estaba sorprendido de la acción voluntaria del pueblo de México en el rescate de las víctimas y su atención a pesar del daño en los hospitales, pero también de la ayuda internacional que continúa llegando de todo el mundo, lo que demuestra la presencia importante de México en el contexto mundial".

N. HAMED Essafi, secretario general adjunto de la ONU, llegó al DF.

Llega el Subsecretario Adjunto a Evaluar los Daños

Apoya la ONU la Petición Mexicana a los Banqueros, de Mayor Comprensión

Por HUMBERTO MONTOYA

La Organización de las Naciones Unidas se suma al clamor mundial de que las entidades financieras internacionales tengan mayor comprensión y den un trato preferencial a México en el pago de su deuda externa ante los serios problemas que hoy encara.

Así lo afirmó ayer el señor N. Hamed Essafi, secretario general adjunto y coordinador de la ONU para Socorro en Casos de Desastre, tras informar que la organización internacional haciendo un esfuerzo extraordinario, concedió a México dos millones de dólares fuera de su presupuesto anual, como aportación especial para la reconstrucción de lo devastado por los sismos.

Explicó que dicha cantidad es independiente a los 30 mil dólares ya entregados al Estado mexicano tan pronto como se conoció la tragedia que cimbó al país, «lo que demuestra el gran sentido de solidaridad, respeto y amistad que la ONU tiene para con México, actuación que se

mantendrá vigente todo el tiempo que el pueblo mexicano lo demande».

Sin embargo, aclaró que los mencionados dos millones de dólares extraordinarios destinados al Estado mexicano no serán entregados en una sola partida, sino que, y por petición de las propias autoridades del país, se irán canalizando paulatinamente a través de proyectos específicos determinados por el presidente Miguel de la Madrid, de acuerdo a las prioridades nacionales ampliamente estudiadas y elegidas.

El funcionario, entrevistado en el aeropuerto capitalino, consideró también que ya se han cubierto en gran medida las necesidades inmediatas de ayuda que la población dañada requería, «fundamentalmente por la impresionante y admirable solidaridad y unidad interna de los propios mexicanos, aunque la participación extranjera también ha sido determinante para avanzar como se ha hecho en resolver el problema a la mayor brevedad».

La ONU Otorga más de dos Millones

de Dls. Para Rehabilitación

Diplomáticos Extranjeros Reiteraron

su Apoyo y Solidaridad

Por Víctor Manuel Azcoitia

En una reunión con embajadores de México, los diplomáticos extranjeros reiteraron su apoyo y solidaridad, al tiempo que la ONU informó del apoyo que por dos millones 30 mil dólares otorga al país para la reconstrucción, indicó el subsecretario de Socorro en Casos de Desastre, Ahmed Essafi.

En conferencia de prensa ofrecida en el Salón Oficial del Aeropuerto Internacional de la Ciudad de México, momentos antes de partir a Nueva York, el subsecretario general adjunto y coordinador de la oficina de la Organización de Naciones Unidas para Socorro en Casos de Desastre, señaló que las necesidades inmediatas requeridas por México están cubiertas, la comunidad internacional ha respondido como se esperaba.

Las autoridades mexicanas informaron a la ONU que las prioridades del Gobierno Federal están ubicadas en tres sectores: primero, la reconstrucción de todo lo que se refiere a salud, después educación y finalmente vivienda. Las oficinas de la ONU canalizarán y coordinarán la asistencia y cooperación internacional para estos esfuerzos, lo que fue aceptado por México.

Las oficinas de las Naciones Unidas están prestas a organizar cualquier otro tipo de cooperación y ayuda internacional, y agregó Essafi que pasará mucho tiempo para reconstruir la ciudad, ya que son muchos los edificios destruidos.

Sobre la deuda externa de México comentó que el secretario general, Javier Pérez de Cuéllar, ha estado siempre atento a ese problema y su actitud está orientada a favorecer y aliviar la presión de la deuda externa; en particular sobre México, dijo, hará constar y hará hincapié en la situación de desastre que soporta el país en estos momentos y confió en que los países acreedores de la deuda hagan un esfuerzo para aliviar esta situación que se vive.

Dijo asimismo Essafi que es muy temprano para evaluar los daños, pero adelantó que la Oficina de Hábitat de la ONU ha ofrecido todos sus recursos y capacidad para ayudar en la reconstrucción de viviendas.

El PNUD ha donado dos millones de dólares fuera de la cifra regular, lo que significa una suma extra fuera de la planeación de cada año para programas de emergencia.
